Just a reminder that I am looking for that field mod. Hoping not to get it at the last minute before you go out.

We will be starting on October 4. We are working on a Field Mod.

I am advised that the best way to proceed would be for you to send a Field Modification documenting the rationale and objectives for performing the 2011 survey. The Field Mod should say that the survey will be performed in accordance with the May 2010 revision of the bathymetry QAPP. Other than that, we are OK with your using the procedures laid out in the May 2010 QAPP for the 2011 work.

Can you also give me a more precise starting date for the bathymetry work? We are trying to nail down Jason Magalen's (Sea Engineering) availability for oversight.

Subject: Post Irene Bathymetry Survey

Alice:

As we discussed, the CPG will undertake a bathymetry survey of the LPRSA requested by EPA on September 1. The survey will be starting the week of October 3. GBA will be conducting the survey as it has previously done for the 2007, 2008, 2010, and 2011 RM 10.9 Surveys. We will utilize the EPA-approved QAPP - Quality Assurance Project Plan for Lower Passaic River Restoration Project: Periodic Bathymetric Surveys - May 2010 - Revision 2 which is attached and I have also included the QAPPS's SOPs.

Please contact me with any questions.

R/  
Rob
